

IST 263 Project Milestone 1

Name: Alyssa Tran

Description: My idea for my website displays the types of piercing placements someone can get on their ears and body. I have around 15 piercings total, which have varied in pain tolerance, and I want to create this site to help people understand their bodies as well as making sure they purchase the right type of jewelry.

1. What will be on the home page?

On the home page I will introduce the site and my mission as well as give a brief history on the history of piercings since I have done previous research on this topic.

2. What will be on the 2nd page?

This page will have photos and descriptions of each piercing placement and pain guides. I would include tips for first timers and give them my considerations.

3. What will be on the 3rd page?

On the 3rd page I will recommend healing tips, jewelry type, and safety information since I want people to look out for reputable studios only.
